

January 2016 – list of tunes on Piob Soc website with no recording of the tune

Tunes beginning with the letters A - F

The task which the Piobaireachd Society has set itself, namely to obtain a recording of every tune known, is a major undertaking. The list below is the first part of the alphabet only – and while there are some relatively obscure tunes in there, we are missing recordings of classics such as The Company's Lament, and Fair Honey.

If you have access to a recording of any of these tunes ***please*** get in the touch with us, so that we can publish that recording on the site. Remember to ask permission from the artist before sending us the recording.

Thank you.
